SUBJECT.

Standardization of Charges recoverable from Local Bodies for the maintenance of Local Fund Dispensaries.

Si No. 9376 M. D. - 35

to The Surgeon with Govt.

WD 0295—GPB—22,500—18-8-37

Requests him to obtain & forward a Statement showing the Local Bodies Concerned in the submission of the proposal

D 5352

General and Revenue Secretariat | Med File No. 279 of 1935 | [App. F. III—2

Serial No.	
1	From Sir Charles Todhunter D.O. Letter No. C 137 dated 21-3-1936 re the scheme for Standardization of Medical charges. 1) So far back as June 1929, Mr. Anekal Srinivasa Iyengar, R.A. member, brought to notice in the R.A. (June Sr.) the desirability of adopting a lumpsum provision to be fixed in the case of local bodies for medical Institutions located within their jurisdiction and Govt promised to Consider this suggestion and said that they would fix for a period subject to revision, the Contribution to be paid by each local body annually. (Flag ○). 2) This promise having been referred to the S.S. he explained, in his D.O. No. S 2/6/30 (Flag V) the desirability of making the Contributions to local bodies fixed sums and on the basis of actual expenditure incurred in each dispensary for 3 years or so suggested that in the case of a Local Fund dispensary the lumpsum Contribution may be fixed at Rs 1400/- per annum and in the case of Reduced Scale dispensaries at Rs 1000/- p.a. & ~~[illegible]~~ 3) The local bodies having been Consulted the Bds. of Bijapur, Mysore, Kolar & Shimoga were for the proposal while Bds of Kadur Hassan & Chikballapur were against and [illegible] was for the proposal Conditionally (Vide paras 100 to 114 of the note in Med. File No 91-29 Vol 1-9 pink slips).

NOTE.—Contn. Sheet.

WD 03594—GPB—30,000—18-7-35

2) Standardisation of the Medical charges payable by local bodies

med File No. 279 of 193 S/. General and Revenue Secretariat

4 The II Member discussed the question with the S.S. and in his minute dy 28/9/33 directed that Rs 1400/- may be adopted in the case of Ob'tns. Thuraja. Kolar & Mysore; Rs. 1300/- for Trichur & Rs 1000/- or so for other Dts; the scheme to be tried tentatively for 2 years in the first instance. (Para 12.8 of the notes in the file put up)

5) The draft G.O. put up was first sent to the S.S. and when it was sent back for him, it was sent to the Hon Comptroller (present Fin: Secy) by the Jt Secy for remarks. The Comptroller opined that the proposed arrangement was an improvement on the existing procedure & may be sanctioned (Vide paras 150 to 153 of the notes in the file put up)

6) The Jt Secy having sent back the file to the Comptroller asking how the ~~accounts~~ deposits in the existing procedure could be rectified without changing the procedure itself, the Com'ller (Mr. A. N. Raghavachari) suggested certain minor alterations in the existing procedure and these were agreed to by the Jt Secy and the II Member after discussing the question with the Jt Secy and G.O. Dy 23 T.S. 1. 35 was accordingly issued (Flag A)

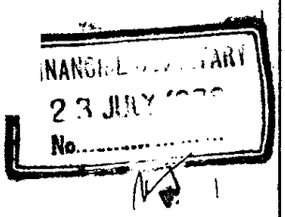
7) In view of the opinion now expressed by Sir Charles Todhunter in the Bud and the fact that 4 of the Dt Bds were agreeable to the proposal, and conditionally two were against it, it is for consideration whether as intended by the II Member

Standardisation of Medical charges payable by local bodies

Comptroller's Office

File No. Med 299 of 1935

Serial No.



U.O. 65/AII dated 22nd July 1936.

Returned with compliments.

16) The rules for claiming the charges in respect of Local Fund Dispensaries are contained in Article 252 of M.C.A.C. Vol.I. It is not clear whether it is - - proposed to have one fixed or lumpsum contribution for all kinds of contributions viz., Fixed and Variable charges. Contributions for fixed charges are levied on charge allowance, establishment, rent and fixed contingencies, while charges for supplies of medical and -- other Stores and in connection with epidemics or other special occasions would be variable. Fixing a lumpsum contribution for some charges only and recovering - - actual charges under other items will not remove the difficulty. On the other hand, as it will be difficult to fix a proper average to cover both the charges, the fixing of a lumpsum contribution may involve extra -- outlay on Government funds, on the basis of actuals, over a series of years.

17) As pointed out in this office U.O.Note to Government No. 105 dated 12-10-34, the fixed contributions will at best be empirical. Such fixation will also necessitate the quota to be paid by the local bodies - being reconsidered and other institutions may not agree.

18) It was already proposed in the above note that if the correct demands be intimated to the local bodies

Note—Contn. Sheet.

Standardisation of Medical charges payable by local bodies

File No Med 279 of 1935 — Comptroller's Office

and any large differences allowed to be adjusted from the succeeding years' provision, the difficulties may be minimised. Out of Rs 2,45,000 due by the local bodies as contribution for Local Fund dispensaries for 34-35, the amount remaining unadjusted is only about Rs 4,140 and it is possible that even this will be adjusted in June 36 as all payments are usually made in that month. As a further measure to remove any difficulty that may be felt by the Medical Department in this respect the local bodies may be asked to provide in their budgets for a 10% or 5% margin over and above the normal amount to provide for any contingencies or possible variations. As the recovery will be on the actual basis such a provision will throw no additional commitment on the local bodies.

Serial No. A

19) In the above circumstances, the existing arrangements may perhaps be continued for some time longer with some modification, if necessary, as noted above.

20) It is not clear whether from an administrative point of view any change is called for and the arrangements proposed, are needed. From the point of view of audit, it would be possible to watch the provision of and recovery of lumpsum contributions from the local bodies if levied but the

COM.50.N.1,000.28-3-34

Standardisation of medical charges payable by local bodies.

(4

Serial No.

H 616

Medical File 91-29-9, it is seen that difficulty is felt in fixing the amount of contribution for each class of dispensaries in all the districts. The Local Bodies are agreeable to the levy of the fixed contribution if it is found to be less than the amount now recovered, and unwilling to the adoption of a lumpsum amount if it is more than the amount now recovered. Even if a lumpsum contribution is fixed for a series of years, it will be necessary to maintain accounts of the expenditure of each institution each year, in order to facilitate the periodical revision of the amount in the light of actuals

27). For reasons stated above, I am of opinion that the present procedure, which is also of the nature of a fixed contribution, may be continued with regard to all charges other than the value of country medicines got on indents from the Medical Stores (dealt with in a separate file).

28) By Has the Sr Sn proposed this subject for the Standing Coll on 2 & 9? No 11/2

11/2

29) Subd. This is one of the subjects proposed to be placed before the ensuing meeting of the Standing Committee.

19 Standardization of charges recoverable from the Local Bodies for the maintenance of Local Fund Dispensaries

File No. Med 279 of 1935 — General and Revenue Secretariat

From the Senior Surgeon
Letter No C 2013-2 dated 31-3-1937

Reiterates proposals for standardizing the contributions recoverable from Local Bodies towards the cost of maintenance of Local Fund dispensaries.

(30) The scale of annual contribution now proposed by the Sr Surgeon is as follows

L. F. Dispensary	1375
Reduced Scale Dispensary	1200
Female Dispensary	1450
Female Dispensary with Maternity	2670
Or Bd Dispensary	No fixed Contribution is proposed

Submd for orders. This is one of the subjects proposed to be placed before the Standing Committee, which meets on the 24th instant.

A note on the subject is also put up for approval. This note has to be seen by the members of the Standing Committee before the 15th

(31) The note is based on the opinion of the Senior Surgeon on the subject which is now proposed to be considered at the Standing Committee meeting.

Draft Note is submitted at H

(32) Copy of the Note is sent to the members of the Standing Committee

Standardization of the charges recoverable from the Local Bodies for the maintenance of the Local Fund & other Govt dispensaries

General and Revenue Secretariat | File No. of 193 | App. ~~E. III 2~~

Serial No.

7E335)

44) I have no objection to any proposal which will not involve extra cost or loss to Government on the whole, though I still feel that the Local Bodies, who may have to pay more than what they are now paying, may not agree to pay the excess, while the Local Bodies who have to pay less than what they are now paying will readily agree to the revised arrangement

45) The lumpsum contribution proposed to be fixed includes the charges on account of variable items of expenditure such as Country Medicines, and Bedding and Clothing, and I think that it has to be laid down that any extra supplies (over and above a standard prescribed quantity) to the Local Fund dispensaries will have to be paid by the concerned Local Bodies, in addition to the lumpsum contribution referred to above.

46) Since the lumpsum contribution includes provision for pensionary contribution, a portion of it has to be credited under 'XI Pensions and allowances' in the Budget and Accounts. How this should be done may be separately examined in consultation with the Comptroller

Serial No.

made in their respective Budgets as the Local Bodi will thus get information well in time to do so.

58) 3. Under the procedure in force, the demand for Fixed Charges is raised by the Senior Surgeon on the basis of the provision in the Budget, while that for variable charges on account of Bedding and Clothing and Country Medicines is worked out by the Medical Stores with reference to the actual supplies in accordance with the limits prescribed for different types of dispensaries. Since the demand raised in respect of Fixed Charges includes also a few variable items such as Diets, Rewards to Midwives and Travelling Allowance, they are liable to slight fluctuations in spite of their being subjected to control within the allotments provided in the sanctioned budget; and the gravamen ~~graveness~~ of the complaint of the Local Bodies is that they could not anticipate these variations to make the requisite provisions in their Budgets. But if however the Local Bodies could find funds for such petty increases by providing in the Estimates amounts slightly in excess of what is intimated to them by the Senior Surgeon the difficulty would disappear. In the alternative it is open to them to meet the difference from subsequent year's provision as provided for in the G.O. of 28th January 1935 under advertance.

59) 4. As pointed out by the Senior Surgeon the existing procedure no doubt postulates much scriptory labour and an elaborate process of tabulation and apportionment of demands for Fixed charges annually among the several Local Bodies in addition to the preparation

Note—Contn. Sheet.

18) Standardisation Plan charges recoverable from local bodies on account of maintenance of Local Fund Dispensaries

File No. Med 279 of 1935 | Comptroller's Office

Serial No.

of bills by the Medical Stores for actual supplies on account of variable charges to several institutions numbering about 200; but the procedure has stood the test of time except in regard to pensionary charges which are not being recovered regularly apparently because they are not included in the demands. If Government see no objection the existing procedure may be continued for some time more, with the additional proviso that pensionary charges may also be included in the demands at 1/9th of the charge in respect of pensionable establishment.

60) 5. With regard to the liability of the Govt and of the Local Bodies, excepting the recurring cost on account of Europe medicines and the Pay of Medical Officers which are borne by the Govt, the entire charges both initial and recurring (fixed and variable) for the maintenance of these institutions are to be met by the Local Bodies under Rules i to iii of Article 252(a) of M.C.A.C. Vol.I; and in ~~the~~ case the contributions are to be fixed on a lumpsum basis, the liability of Govt on account of fixed charges will still remain unaffected except to the extent of the slight increases attributable to the quinquennial increments of Compounders and Midwives, which may however be equalised to some extent by taking the average cost for purposes of calculation in fixing the contributions as proposed by the Senior Surgeon. But as regards the liability in respect of variable charges such as Diets, Rewards to Midwives,

OM-71-O-250-26-4-37

Serial No.	
	in para 7 supra, besides contributing to delays in payment to the staff and insufficiency of administrative control.
(64)	9. If none of these suggestions are considered feasible, the contribution may be fixed at a lumpsum based on the average of the actual demands made during the last three years, the amounts thus fixed being inclusive of fixed and variable charges subject to additions sanctioned by Government from time to time in the interval and also subject to a general quinquennial revision in the light of facts and events and ~~changing~~ change of circumstances. This would imply the Medical Department keeping up a standardised printed list of sanctions which will be reviewed once a quarter with a view to the revision of the demand on account of the additions by issuing ~~of~~ addenda and corrigenda slips and furnishing a copy of the same to the Audit Department.
(65)	10. Statements showing the average of contribution levied for fixed charges and the average cost demanded for variable charges during the last 3 years ending 1936-37 in respect of all the institutions in the eight Districts together with an abstract of averages for the State as a whole are herewith submitted for the information of Government.
(66)	11. The average demand for fixed charges is worked out from the demand statements received annually from the Senior Surgeon and that for variable charges is given from the information worked out separately by the Medical Stores to which the pensionary charges have to be added to arrive at the contribution due from each institution.

Note—Contn. Sheet.

Standardisation of the charges recoverable from the Local Bodies for the maintenance of Local Fund & other types of dispensaries.

File No. 38 of 193

Comptroller's Office

Serial No.

12. The above averages differ in the case of different institutions as well as in different districts due to slight variations in the scales of expenditure allotted to each. The slightly higher average for Bangalore District is mainly due to payment of dispensary rent and rent allowances in the City area, while the comparatively lower averages in respect of Tumkur, Hassan, and Kadur are due to lower scales of expenditure incurred on country medicines and travelling Allowances.

13. The averages of the demands for each of the types of dispensaries as worked out in the statements for the ~~entire~~ entire State are furnished hereunder and adding pensionary contribution thereto at 1/9th of the pay of Compounders, Midwives and Dispensary attendants whose services are now recognised as pensionable, very nearly approximate the lumpsum contributions proposed by the Senior Surgeon and may perhaps be adopted suitably rounding them to the nearest 50 or 100 for convenience, as proposed by me hereunder (Vide statement appended)

14. As the variations in respect of Female Dispensaries and Maternities are rather high due to different scales obtaining in different institutions it seems advisable to continue the present procedure of levying contributions on the basis of the provision made in the Budget in respect of each of these institutions as the number is not large.

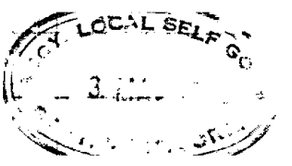
C 2018-4 2.5.38.

(72) I agree with the Comptroller in the proposals made in para 68 supra, for including the pensionary contributions to the demands at 1/9 of the pay of the Compounder, Midwife and Dispensary Attendant and for the adoption of the lump sum contribution proposed by him for the two classes of Dispensaries viz.

L.F.Dispensaries at	Rs.1350/-
Reduced Scale Dispensaries	Rs.1200/-



(73) In Bangalore City and some other places the dispensaries are located in rented buildings and the Municipality or District Boards pay rents for these buildings. As these rents have not been included in the lump sum contribution, they may have to be continued to be paid separately by the Local Body as heretofore. As there are only two or three places having only a Female Dispensary without Maternity Wards attached to it, the present procedure may be continued in the case of these institutions as well as Female Dispensaries and Maternities, as variations are rather high due to individual scales in different places.

(74) In connection with Female Dispensaries, the Lady Doctors are to be invariably provided with free quarters or a house rent allowance of Rs.10/- per mensem which will have to be borne by the concerned Local Bodies apart from this contribution, wherever free quarters are not provided.

75 This scheme may be sanctioned and tried for a period of three years, subject to revision in the light of the experience gained after this time.

76 But it may be made clear that any extra supplies required for combating outbreak of epidemics etc.,

Dear Sir Charles,

With reference to the Conversation we had on the 11th instant about fixing lumpsum Contribution payable by Local bodies for Local Funds & dispensaries, I send enclosed Medical file No. 91-29 Slo 1-9 of Febo 35 for your kind perusal. The Notes and discussions therein show that this same question was ~~gone into~~ & discussed in detail with the result that the then existing procedure regarding the recovery of Contribution payable by Local bodies was ordered in G.O. Ms $\frac{23}{25}$. 1. 35 to be continued with slight modifications

The file may kindly be returned when done with.

Yours sincerely

Ballabrooie,

Bangalore, 21st March 1936.

OFFICE OF THE SECOND MEMBER OF COUNCIL. 6 APR. 1936 No. M 264

GENL. & MIS. BRANCH. 5352 11 APR. 1936 GENL. & REV. SECTT.

My dear Madhava Rao,

I am much obliged to you for your d.o. letter of the 19th instant and for so kindly letting me see the Medical File No.91-29 Serial Nos.1-9 of February 1935, which contains the reasons for the rejection, after five years of discussion, of the Senior Surgeon's partial scheme for standardisation of medical charges.

I hope you will pardon me if I suggest that possibly, in the course of the five years of discussion, the original object of the scheme became somewhat obscured. The only reason for rejecting it is that given in para 159 in a note by the Comptroller:

"I find that, though a fixed lump sum contribution will to "some extent reduce clerical work both in this office and "the Senior Surgeon's office, and will also do away with the "uncertainty of the demands against each local body, still ~~the~~ "the departure of actuals from such demands may not be con- "siderable and the minor considerations affecting clerical work "do not also warrant a change in the existing procedure."

A reference back to para 12 will show that the Senior Surgeon regarded "the reduction of scriptoral and clerical work as of secondary "importance". He said "the prime consideration is that the proce- "dure standardises the recoveries and gives a freer hand to the De- "partment, within the limits of the contributions recovered, of uni- "formly regulating the fixed contingencies, pay of the menial staff, "etc., which now vary for each place."

There seems to me to be a radical question of principle underlying this part of the proposal. If the local bodies paid for the service and the Government helped them with grants, it would obviously be open to the Government to vary their grants according to circumstances. A priori, if the Government conduct the services and the local bodies' function is to contribute, it is obviously open to the Government to standardise the contributions or vary the scale of establishment, and it seems to be the reverse of logical to perpe-

S. SUBBA RAO, Esq., B.A., M.B.C.M., M.R.C.S., (Eng.) L.R.C.P., D.P.H.,

Senior Surgeon with the Government of H. H. the Maharaja of Mysore.

GENERAL S... 2 - APR. 1937

To

The General Secretary to the Government of
His Highness the Maharaja of Mysore, Bangalore.

Sir,

Reg. L

With reference to the correspondence ending with Government Order No.G.7135-52/Med.91-29 dated 23/28-1-1935, on the subject of the standardisation of the charges recoverable from the Local Bodies for the maintenance of Local Fund Dispensaries, I have the honour to bring to the kind notice of Government that the scale of recurring charges for the several classes of dispensaries practically rest on a standardised basis, the variations as between one dispensary and another of the same type elsewhere in a different district occupying a small and altogether negligible range. I submit a statement showing the various types of dispensaries and the scale of recurring charges attached to them. It will be kindly seen that each class of dispensary connotes an inflow to the departmental budget of an annual aggregate sum which is or can be quite definite because of its regulation by a standardised scale. I note below the annual maintenance charges that would be due for recovery annually in each case.

Local Fund Dispensary ...	Rs.1164	Pensionary contribution and travelling allowance not included.
District Board Dispensary ...	" 1617	
Reduced Scale Dispensary ...	" 997	
Female Dispensary ...	" 1236	
Female Dispensary & Maternity	" 2280	

As I have mentioned, there would be slight difference due, fo example, to the pay of watermen being different in different places and one of the aims of the proposed standardisation is to equalise these wholly unnecessary and arbitrary differences. As Government are aware, such equalisation has been receiming attention and quite recently the pay of the menials attached to the several dispensaries in the Kolar District has undergone revision.

revision.

2. In this connection, I submit a copy of letter No.233.B. dated the 18th March 1937, received from the Surgeon General with the Government of Bombay in reply to my enquiry as to the procedure which obtains for the levy and recovery of contributions from local bodies for the maintenance of dispensaries in that Presidency. The reply reveals a fundamental difference in the outlook and the methods. Whereas in Mysore the brunt of the expenditure is borne by Government in the shape of the pay of the medical men and the cost of Europe Medicines, in Bombay, "the Municipalities and District Local Boards maintain their own dispensaries and Government pay a small grant-in-aid to each dispensary". If therefore the proposed standardisation is brought into effect the local bodies can possibly have no reasonable objection to adduce against it seeing that Government would on their side continue to share in the expenditure in a manner, which has no counterpart in the neighbouring Presidencies.

3. Under the existing procedure the recoverable charges are divided into two classes- one classed as fixed charges and comprising the items of charge allowance to Medical Officers, Establishment, House rent, Fixed contingencies and Travelling allowance; and the other known as variable charges comprising such items as Bedding and clothing, Country medicines etc. The former are paid annually by the several local bodies on demands made by the Comptroller to whom Districtwar statements are furnished by this office, based on the provision made by the several local bodies in their respective budgets. A different procedure obtains as regards variable charges which are adjusted according to the actual expenditure billed for by the Medical Stores as and when supplies are made. This bifurcation in procedure results in a great deal of avoidable scriptoral work, confusion and delay in adjustments. The actual position in the Medical Stores was recently examined with the help of an Accountant deputed from the Comptroller's Office and it transpires that as many as 1928 bills against the several District Boards and Municipalities are outstanding, the amounts still to be recovered aggregating to Rs.57,028. If the variable charges also were incorporated into the

into the total sum to be recovered annually from the Local Bodies, there would be no occasion for presenting bills separately for these items and congestion of work in the Medical Stores might be relieved and delays obviated. Considering the fact that the variable charges also conform in value to a standard which remains constant for each dispens from year to year, there is really no difficulty in converting the variable charges into fixed ones. With the large increase in the numb of Dispensaries, the work in the Medical Stores has more than doubled and the perpetuation of the present procedure as regards variable cha will entail the immediate addition of atleast two qualified accountar to the staff of the Medical Stores to maintain ledgers and accounts, prepare bills and see to the prompt recovery of dues.

4. A third disadvantage involved in the esting (existing ?) system is the irreg larity in the payment of pensionary contributions by the several loca bodies. The proposed standardisation provides for the inclusion of charges so that the amount due to Government may be automatically r recovered as a fixed annual subsidy. At present, pension applications of Midwives,and Compounders are unconscionably delayed owing to the necessity to verify in each case whether or not the requisite pensio contribution has been paid in.

5. From the foregoing I feel sure you will concede that there is a real case for the favourable consideration by Government of my propal for standardising the contributions recoverable from the Local Bodi. I suggest the following scale:-

1. L.F.Dispensary ...	Rs.1375/-
2. District Board Dispensary..	No fixed contribution is pro as all the charges are ente met by the Local Bodies th selves in the 1st instance
3. Reduced Scale Dispensary...	Rs.1200/-
4. Female Dispensary ...	" 1450/-
5. Female Dispensary & Maternity	" 2670/-

The amount would be all inclusive and would cover not only the present fixed charges but also the variable charges as well as pensionary contributions. These figures may be revised if necessar after three years.

I request very early orders.

I have the honour to be,
Sir,
Your most obedient servant,

S. Subba Rao

Senior Surgeon.

For Senior Surgeon.

Letter No.233/B of 1937 dated 18-3-1937, from the Surgeon-General with the Government of Bombay, Bombay , to the Senior Surgeon in Mysore,Bangalore.

Subject:- Contributions.

With reference to your letter No.C.2013 dated 8th March 1937, I have the honour to state that in this Presidency Municipalities and District Local Boards maintain their own dispensaries and Government pay a sma grant-in-aid to each dispensary. Municipalities are required to spend 4 per cent of its total expenditure on "Medical Relief". No such percentage has been fixed in the case of District Local Boards. Government have maintained Civil Hospitals at District Head-quarters and a few dispensaries at Taluka places to which the District Local Boards and Municipalities pay some contribution, but the sum of contribution is not fixed. It differs according to the financial position of the local body concerned. There is no arrangement under which the contributions from Local Bodies are recovered as a standardised fixed charge for each type of hospital or dispensary.

D.4542 Med 279-35

Proceedings of the Government of
H.H.the Maharaja of Mysore.

R e a d:-

(Flag R) G.O.No.L.6827-47 Med.129-21-17 dated 5.4.1923, sanctioning the procedure for the recovery and adjustment of contributions payable by Local Bodies for the upkeep of Local Fund Dispensaries.

(Flag L.) 2. G.O.No.7135-52 Med 91-29 dated 23/28th Jany 1935, directing the continuance of the procedure referred to above subject to certain minor modifications.

Pages 5 & 6 of the Notes. 3. U.O.Note 65/ A ii dated 22nd July 1936, from the Comptroller on the subject.

4. Letter No.C.2013-2 dated 31st March 1937, from the Senior Surgeon submitting for orders of Government a scheme, under which the Local Bodies, viz., the District Board and the Local Municipal Council may pay an annual fixed amount of contribution towards the cost of maintenance of the Local Fund and other types of Dispensaries situated within their jurisdiction.

ORDER NO.

Dated,Bangalore,the June 1937.

The question of standardization of the

the charges recoverable from Local Bodies for the maintenance of the Local Fund and other types of dispensaries situated within their jurisdiction has been under consideration of Government for some time past.

Under the present procedure, the recoverable charges relating to Local Fund and other types of dispensaries are divided into two categories, viz., fixed and variable charges. As regards the recovery of the fixed charges which comprise of the items noted in the margin, the procedure is that the Senior Surgeon intimates to the Comptroller soon after the State Budget Estimates are sanctioned, the amount recoverable from each Local Body which issues a crossed cheque for the amount for credit to the Medical Department and it is stated that this procedure entails much inconvenience to the Local Bodies as fluctuations in cost occur from year to year on account of variation in minor items, such as travelling allowance and rewards to Midwives etc., and sometimes resulting in the provision made by the Local Bodies falling short of the demand made on them.

* Charge allowance to Sub Assistant Surgeon.
Pay of Dispensary Estt.
House Rent.
Fixed Contingencies and travelling allowances.

The variable charges are on account of such items as "Bedding and Clothing"

and

and "country medicines" and are adjusted according to the ~~actual~~ actual expenditure billed for by the Medical Stores, as and when supplies are made.

2. The Senior Surgeon reports that this bifurcation in procedure in regard to the recovery of fixed and variable charges has resulted in a great deal of avoidable scriptory work, confusion and delay in adjustment of bills.

The arrangement of fixing lumpsum payments on the basis of average expenditure, in respect of each institution, has the advantage of reducing accounting work, as the receipts will be more or less equal to the expenditure incurred by Govt. and the Local Bodies, themselves, will be sure how much they would have to pay and this arrangement is expected to result in a substantial decrease in correspondence.

Such an arrangement has been in force in the case of vaccine lymph supplied to Local Bodies and has worked well. The Senior Surgeon adds that another disadvantage in the existing procedure is the irregularity and delay in the payment of ~~pensing~~ pensionary contributions by the Local Bodies and that the proposed standardisation provides for the inclusion of these charges also.

3. The Senior Surgeon has accordingly proposed that, based on the average expendi-

expenditure of previous years, the annual contribution recoverable from Local Bodies to cover the Fixed charges, the variable charges and the pensionery contributions in respect of the several L.F and Mn hospitals, may be fixed as follows:-

	Rs.
1 Local Fund Dispensary.	1,375
2 Reduced Scale Dispy.	1,200
3 Female Dispy.	1,450
4 Female Disp.& Maternity.	2,670

4. This subject was placed for consideration before the meeting of the Standing Committee for D.S. Dept + the Depts of Medicine & Public Health and they agreed to the procedure proposed, as from an administrative point of view, it will prove convenient even to the Local Bodies.

5. Government are pleased to sanction the above proposals tentatively for a period of 3 years in the first instance.

(DRAFT)

10/6/37

Standardisation of charges recoverable from Local Bodies for the maintenance of Local Fund and other types of Dispensaries.

-----:O:-----

In regard to the Local ~~Local~~ Fund Dispensaries the cost of Europe Medicines and the pay of the Sub Assistant Surgeon are, under standing orders, borne by Government and the other charges noted in the margin are borne by the Local Bodies i-e., by the District Board and the Municipal Council in the proportion of 2/3rd and 1/3rd. In the case of Female Dispensaries and Maternities, such cost is borne in equal proportion by the Local Bodies.

- Charge allowance to Sub Assistant Surgeon
- Pay of Dispensary Staff
- Contingencies
- Cost of Country medicines

Procedure for recovery of the cost from Local Bodies.

The present procedure regarding the recovery of fixed charges comprising of the items noted in the margin is as follows:- The Senior Surgeon intimates the Comptroller soon after the State Budget estimates are sanctioned the amount recoverable from each local ~~bodies~~ body, which issues a crossed cheque for the amount for credit to the Medical Department. This procedure entails much inconvenience to Local Bodies. The Senior Surgeon states that fluctuations in cost occur from year to year on account of ~~aviation~~ variation in minor items such as travelling allowance, reward to midwives etc., and the provision made by the local bodies to meet the annual contributions may fall short of the demand made on them. The variable charges are adjusted according

- ✓ Charge allowance to Sub Asst. Surgn.
- ✓ Pay of Dispensary establishment,
- ✓ House rent
- / Fixed contingencies

expenditure billed for by the Medical Stores as and when supplies are made. This bifurcation in procedure results in a great deal of avoidable scriptorial work, confusion and delay in adjustment. If instead the contribution should a fixed sum instead of being variable as at present, and depend on the class or type of Dispensary, the procedure of recovery might be simplified, and there would be no need to calculate the cost of each Dispensary from year to year. This would also result in reduction of scriptorial work and correspondenc

If the recovery of contribution is standardized and fixed it gives a freer hand to the Medical Department within the limit of the contribution recovered, to uniformally regulate the fixed contingencies and pay of the medical staff, which, in some cases, not vary from place to place. The Local Bodies on the other hand will be saved the inconvenience arising from the uncertainty as to the amounts that they should provide in their budgets annually.

The contribution recoverable from the Local Bodies which would include fixed and variable charges as well as pensionary contributions is proposed to be fixed (as follows:- on the basis of average expe

Local Fund Dispensary	...	...	Rs. 1575/-
